That a Rubber Sponge for your bath is more invigorating than the old-fashioned article, that it produces all the friction of a bath brush without the discomfort, that it left your flesh all in a glow, and that it would last for years, you might wonder if we were not stretching the truth a little. But we are merely repeating the statements of those who are using Rubber Sponges. If you are interested call and examine them at

No man can long listen to evidence in an average trial in court now without being impressed with the little regard for oaths and the frequency of perjury in cases where witnesses positively swear to just the opposite. If it will not be desirable to revive the solemnity formerly surrounding persons making oath between lighted candles and one hand on the Bible while the other called God to witness, more frequent convictions and severe punishment may answer the same good purpose.—G. H. Tribune.

A bill introduced in the house of representatives by Representatives Wade of Allegan provides for increasing the salary of judges of probate of the counties of the state on the basis of population. The proposed increase would be about 20 per cent over the present salary provided by the statutes, but no judge is to receive less than \$400 a year. The bill provides that judges of probate in counties of 70,000 population or over shall receive \$3,500 a year, those in counties having between 60,000 and 70,000 are to receive \$3,000, between 50,000 and 60,000, \$2,800; between 40,000 and 50,000, \$2,000; and a proportionate decrease down the scale. For counties under 50,000 population the bill provides a salary computed at 12 cents per capita, but no judge shall receive less than \$400.

The Pontune bridge case was tried in circuit court at Allegan yesterday. Results are not yet known. The trouble arose over the Laketown township's refusal to keep the bridge in repair. During the coming week, commencing Tuesday, February 10, one-day farmers' institutes will be held in Cheshire, Otsego, Martin, Watson and Allegan. The following week's work will open the 17th at Hamilton, with meetings at Corning and Hopkins Station the 18th and 19th, closing the series with the county roundup or state institute at Wayland the 20th and 21st. Good programs have been arranged for each meeting, state speakers are expected to assist local talent. President Charles Button and Secretary L. C. Root, of the Allegan County Farmers society will be present at all the sessions, so far as possible, and their efforts deserve the hearty support of the people in every community where they hold institutes. The local pickle factory, has had a prosperous year, having done at least one-third more business than at any time in the previous history of the plant. The capacity of the factory has been nearly doubled and a canteen department is one of the recent departments to be established at this branch of the great Heinz factories, providing work for over 50 girls, who will be able to find employment until April 1. A large force of men is also employed, and still there is a demand for more help. This is the first season the entire force of workers has been retained during the winter. The reason that the factory continues operation after the pickle, tomato and cider apple seasons are past is that the 23 salting stations at which large quantities of stock have accumulated during the summer are sending almost daily a one-tank car of salted pickles which the local factory prepares for market.

The traveling exhibit of the Western Drawing Teachers' association, which created so much interest last year, will be on exhibition here again this year, the first or the second week in March. Wm. Lubbers, Benj. Lugers, Gerrit Heuneveld and H. Schultema have received \$1,000 for 60 acres of land near the castle on Lake Michigan beach. The object of the purchaser is to lay out the land into a summer resort and to build cottages for resorters. Born to Mr. and Mrs. Chas. Holmes of Robinson Monday, a son.

L. Garnett and John Robert our section hands are employed in Grand Haven this week laying a side track.

There is some talk of having a rural mail route established throughout our locality and the farmers are looking for it.

Peter Du Shane our fish peddler was around Monday with the salted Pigeon Creek variety.

Considerable building may be expected here this year. Four barns and a house have been heard from and we need a grist mill.

Gale Wilmarth met with another accident Tuesday. While putting the cornice on the church he fell from a scaffold and knocked a pain of glass out of the window. He was not injured however as he fell in a good position.

Nelson Dreese returned to Bass River Tuesday where he is working in the woods. He has been at home during the past two weeks with the grip.

T. W. Oakley and D. M. Stuart, manager and bookkeeper respectively, for the H. J. Heinz Pickle company of Holland were here Tuesday night accompanied by two gentlemen from outside the county. A tomato meeting was held in which the farmers were much interested. If one hundred acres can be secured an addition to the factory here is assured.

Jefferson Swinehart loaded his eleventh carload of baled Robinson marsh hay Tuesday.

## Graafschap.

At a creamery meeting which was held last Monday the farmers received a dividend of 45 per cent. According to custom 3 per cent was retained to pay for running expenses. H. Boeve, secretary of the Farmers' club, made a strong plea, at the last meeting of the club, to cut the expense per cent to 2 1/2 percent. The matter of reducing the retained per cent is still under discussion.

Rutgers & Tien are selling dry goods at cutting prices. Excellent goods can be bought at 3 cents a yard.

Step in at Boven & Brink's, the grocers, who sell groceries rock bottom prices.

Last Wednesday Mr. and Mrs. H. Beekman were pleasantly surprised. A happy company gathered at their home in a very unexpected way and spent a jolly time.

The family of Mrs. M. L. Bobbitt of Bargerton, Tenn., saw her dying and were powerless to save her. ## Proposed Gas Ordinance.

AN ORDINANCE GRANTING TO and his assigns, the right to construct, maintain and operate Gas Works in the City of Holland.

THE CITY OF HOLLAND ORDAINS:

Section 1. That consent, permission and authority are hereby granted to and his assigns, to lay, maintain, operate and service gas pipes, mains, conduits and service pipes of the streets and alleys of the City of Holland for the purpose of selling and supplying manufactured gas for fuel, illuminating and manufacturing purposes to the inhabitants of said city, for and during the term hereinafter specified and in the manner and upon the conditions set forth in this ordinance.

Sec. 2. Said grantee, and his assigns, shall lay all of said pipes, mains, conduits and service pipes in such a manner as not to interfere with other pipes, conduits and sewers already laid in the street and so as not to injure the same or prevent access thereto, over, under and around the same for the purpose of taking them up or for necessary examination and repair; and if in the laying of said gas pipes, mains, conduits and service pipes any injury shall result to other pipes or sewers, the expense of repairing such injury shall be born and paid by said grantee or his assigns. Said provisions shall apply to all other pipes and sewers when crossing said gas mains or running in the same direction.

Sec. 3. The main pipes laid by said grantee or his assigns, in the streets or alleys of said city, shall be of the most approved kind as to size and quality and shall prove at least eight (80) pounds water pressure and shall be laid in alleys whenever practicable and when so ordered by the Common Council; said grantee and his assigns before laying any pipe in any street in said city, shall first make application in writing to the Common Council of said city, showing the location where said pipes are to be laid, which location shall be subject to change by said city and said pipes shall then be laid in such streets or alleys only, in accordance with the permission of the Common Council.

Sec. 4. Said pipes shall be laid at a sufficient depth so as not to be an impediment to the use of or an injury to the surface of the streets, and all the appurtenances thereto which extend to or above the surface of the streets shall be so constructed and located therein as not to interfere with the ordinary use of the street; and the main pipes laid in any street shall be laid six (6) feet from the outer edge of the curb thereof and on the opposite side of the street from the water mains, unless the Common Council shall otherwise direct, in which case they shall be located as directed by said Council.

Sec. 5. The said grantee, and his assigns, shall do no injury to any street or alley nor to any shade trees, curbs or sidewalks; nor in any manner disturb or interfere with any of the city's water pipes or sewers and shall indemnify and save harmless the City of Holland from any and all claims for damages which said city might be made or become liable to pay by reason of the construction, making, laying or operating the said pipes, mains, conduits or service pipes or the giving or allowing of the license, right and privilege hereby granted.

Sec. 6. Before opening any street or alley in said city for the purpose of laying its pipes or making connections with said pipes, said grantee, and his assigns, shall give the City Clerk notice of the intended location of same twenty-four (24) hours before commencing such work; and in the relaying of pavements and in doing all other work necessary for the complete restoration of the streets, pavements, sidewalks, or grounds to an equally good condition as before disturbed, said grantee, and his assigns, their servants and employees, shall at all times be under the supervision and direction of the City Council or its authorized agent, and when said grantee or his assigns, shall open ground in said city to lay any gas pipes or for any purpose whatever, they shall open no more space at any one time nor at any one place, nor keep the same open, longer than is necessary to execute the work for which the same shall have been opened, and the Common Council or its authorized agent may determine the question of such necessity. Said grantee, and his assigns, shall at all times keep the necessary number of men and horses around all excavations and keep sufficient space in good condition for travel for wagons and teams on at least one side of all excavations and shall as soon as practicable restore all openings to a condition equally as good as before and shall promptly comply with any order or regulation of said Common Council or its authorized agents. And it is especially required that in all cases where work requires the exercise of skill, as in the laying or relaying of pavements, crosswalks or sidewalks, the said grantee, and his assigns, shall employ none but skilled workmen, familiar with the execution of such work. It shall, however, be optional with the Common Council to relay such pavement, sidewalks, and crosswalks themselves at the expense of said grantee and his assigns, if in their judgment the best interests of the city require it.

Sec. 7. The expense of the city to carry out the provisions of the foregoing section and for the services of its agent or agents in superintending the opening up of the streets and relaying the same, shall be a proper charge against the said grantee or his assigns and shall be paid by said grantee or his assigns upon demand by the Common Council, provided that no agent be employed for a longer time than is necessary to protect the city, and no greater compensation shall be charged than is paid for that service performed for said city.

Sec. 8. All meters, service pipes and connections used for the purpose of furnishing gas for cooking purposes shall be furnished, laid and made by said grantee and his assigns, free of charge. All service pipes and connections for the purpose of using gas for other than cooking purposes shall be furnished, laid and made by said grantee and his assigns to that point inside of the building nearest to and most accessible to the street mains, free of charge, and the meters shall be furnished and set by said grantee and his assigns free of charge. Said grantee and his assigns may remove meters from the premises of any persons occupying the same, provided no gas has been used for a period of two months; but if occupants of such premises shall pay for two hundred and fifty (250) cubic feet of gas each month, such meter or meters shall not be removed by said grantee or his assigns.

Sec. 9. The rights and privileges herein granted are upon the express condition that said grantee and his assigns, shall furnish merchantable illuminating gas to applicants and consumers according to the provisions herein and shall not charge nor receive any higher rate for gas furnished to the inhabitants of said city than the following, to-wit: .....

Sec. 10. This ordinance shall be in force and effect only when, and as soon as, accepted by said grantee and his assigns.

Sec. 17. This ordinance shall continue and remain in force subject to the conditions and provisions herein contained, for the period of thirty (30) years from and after its passing, when all the rights of said grantee and his assigns shall cease and expire.

Sec. 18. The Council reserves the right to make any reasonable amendments to this ordinance and to pass such other and further reasonable ordinances in relation thereto as it may deem proper, providing the same does not conflict with any rights or privileges hereby granted to said grantee and his assigns.

Sec. 19. In the event of the grantee and his assigns neglecting or refusing to fully carry out and comply with the provisions of this ordinance for a period of thirty (30) days after notice of a requirement by the Council to cease such violation, then it shall be optional with said Council to declare this franchise forfeited and to annul and rescind the same.

Sec. 20. Said grantee or his assigns shall commence the construction of said gas plant and distributive system within three (3) months after the passage and acceptance of this ordinance and within eighteen (18) months of such acceptance shall have its plant completed, ready to furnish gas, and shall have laid and completed for use at least forty thousand (40,000) feet of main pipe with the necessary service and meter connections to supply all persons along the line of said main pipes who shall desire to use gas under the terms of this ordinance; and shall have laid and completed ready for use before June 1st, 1904, all its pipes on Eighth street, from the west line of River street to the Pere Marquette Railroad crossing, together with connecting service pipes, every forty (40) feet, from said main pipe to the curb lines on both sides of the street; and whenever the City of Holland intends to pave any other street or streets in said city, the said grantee and his assigns shall lay its pipe, together with all the necessary connecting service pipes, to the curb lines on both sides of such street before said paving is commenced and no paving in said city shall be torn up or removed for the purpose of laying any additional main pipe in such street or new or additional connecting service pipes, and said grantee and his assigns shall be permitted to break up paving only for the purpose of repairing its main or service pipes.

Sec. 21. Whenever an applicant shall agree to take and continue to use and pay for fuel or illuminating gas for a period of at least twelve (12) months, said grantee and his assigns, upon application, extend a main and furnish such applicant gas on the terms and conditions herein contained, provided that the said grantee and his assigns can obtain a consumer of gas every two hundred (200) feet.

Sec. 22. The City of Holland shall have the right to purchase, at the expiration of ten (10) years from the date of the passage of this ordinance, and at the expiration of every fifth year thereafter, all the works, apparatus, mains, pipes, meters, supplies and other property and the business of said grantee and his assigns, in this city, at a valuation and upon terms and conditions which shall be fixed by a board of arbitration, to be composed as hereinafter stated, provided said city shall give to said grantee or his assigns six (6) months' notice of its intention to make such purchase, and shall proceed with and complete said arbitration. Said board of arbitration shall be appointed as follows: One member by said grantee or his assigns; one member by the Common Council of the City of Holland; and the third member by the two arbitrators thus chosen. In case the said grantee or his assigns shall neglect or refuse to appoint a member of said board of arbitration or in case the said two members cannot agree upon a third member of said board, such member or members of said board of arbitration shall be appointed by the Judge of the Circuit Court for the County of Ottawa. In arriving at a fair price at which said purchase shall be made by said city, the board of arbitration shall not take into consideration the value of this franchise or grant; but shall allow a fair value for the property actually used by said grantee and his assigns in its business in this city and shall take into consideration an element of value, the earning capacity of the said property and business as then established and existing. The price, terms of sale and time of payment agreed upon by said board of arbitration or by a majority of the members thereof, shall constitute the basis of said sale and the said grantee and his assigns shall be bound to abide thereby. Provided, however, and it is expressly stip

## TWENTY PERSONS KILLED.

Terrible Result of a Collision on the Southern Pacific Railroad East of Tucson, Ariz.

### TRAIN BURNS UP AFTER THE ACCIDENT.

Many of the Victims Are Burned Beyond Recognition—Operator's Neglect Caused the Horror—Special Relief Train Sent to the Scene and Removers All Possible Relief.

Tucson, Ariz., Jan. 29.—At least 20 persons were killed or burned to death in the wreckage of a head-on collision between the "Sunset Limited" and the Crescent City express on the Southern Pacific railroad, 13 miles east of Tucson, at three o'clock yesterday morning.

Of the 20 charred and mangled bodies so far taken from the wreck only four can be identified. Three are trainmen and the fourth J. M. Hilton, a capitalist of Cambridge, Mass. The other 16 bodies are burned beyond recognition.

#### Bodies in the Ruins.

It is believed that at least ten more bodies are still buried in the mass of twisted and tangled steel. The 20 dead bodies have been brought to Tucson.

Thirty persons were injured, the most seriously hurt being Fred Dona-

## NEVER SAID SO.

President Baer Denies the Charge That He Accused Miners of Responsibility for Murder.

Philadelphia, Feb. 3.—Counsel for the Reading company in a statement to the strike commission Monday said President Mitchell had said that President Baer, of the Reading, had charged the mine workers with the responsibility for 21 murders during the recent strike. Mr. Baer, counsel said, desired to correct the impression. He had never made the charge that 21 murders had been committed by members of the union.

The operators finished the presentation of evidence to the commission and the afternoon session was devoted to testimony in rebuttal on the part of the miners.

Philadelphia, Feb. 4.—Simon P. Wolverton, chief counsel for the Reading company, Tuesday announced that President Baer, of the company, had definitely decided to argue the Reading's case before the anthracite strike commission.

## WORST BLIZZARD IN YEARS

Chicago Tied Up by Tremendous Snow, Sleet, Rain and Windstorm.

### WIRES DOWN AND TRAINS DELAYED.

The Storm Is Reported to Be General from the Great Lakes West to the Rocky Mountains—Blizzard Rages at Milwaukee and Throughout Wisconsin.

Chicago, Feb. 4.—Chicago was in the grip of the worst blizzard in years Tuesday and Wednesday, wires being down in every direction as a result of the record-breaking fall of snow and sleet during the past 24 hours. All telegraph wires, with the exception of the Chicago & Milwaukee Telegraph company's copper wire to Milwaukee, were down, as were the long-distance telephone wires. Chicago for hours Wednesday morning was cut off from the news of the outside world. The board of trade showed the effect of the stoppage of outside quotations in the dullness of its own trade.

Snow has fallen, not only in Chicago, but generally from the great lakes to the Rocky mountains, almost continuously since Tuesday morning.

Nearly a foot of snow fell Tuesday, and at night rain and sleet, accompanied by a gale of wind against which it was almost impossible for pedestrians to make progress, completed the storm. This continued for hours, and at the opening of business Wednesday interests which depend on telegraphic communication discovered that communication was to be had only with Milwaukee and intermediate points on the Chicago & Milwaukee's wire.

Street car traffic was greatly impeded, as the snow in its moist condition had packed tightly. Incoming trains generally were reported late.

During the forenoon Wednesday snow in huge flakes, driven by a stiff west wind, continued to fall, hampering the work of the repair crews sent out in every direction by the telegraph companies. The temperature, however, was only slightly below the freezing point, but a drop was predicted.

Long distance telephone connection was established to St. Paul shortly after noon, and a little European and southern news was received from the east by way of the Canadian Pacific telegraph lines; news from the west being sent east and south by the circuitous route. Meanwhile the direct wires from the east had been reestablished as far west as Hammond, Ind., and a large force of repairmen was at work trying to bridge the gap between that point and Chicago.

#### Entire East Cut Off.

At 10:30 the long distance telephone company succeeded in getting connection with Omaha, from which point far western and northern points could be reached by telegraph. The telegraph companies were making heroic efforts to establish a New York connection, but up to 11 o'clock not a line of news had been received from the east.

The first direct news from New York finally succeeded in getting through over a Western Union wire a little after one o'clock, but the entire west was still cut off from Chicago except by long distance telephone to Omaha.

#### Milwaukee Hard Hit.

Milwaukee, Feb. 4.—The blizzard which started Tuesday throughout Wisconsin still continues. Snow plows were kept at work on the street railway lines in this city all night, but in spite of this much difficulty is experienced on some of the lines to continue operation because of drifting snow. The storm is the worst of the season. Railway trains are running very irregularly. Telephone and telegraph wires are prostrated in all directions.

#### Drifts High in the Country.

St. Paul, Minn., Feb. 4.—A Black River Falls (Wis.) special to the Dispatch says: One of the fiercest blizzards for years has been sweeping over this section the entire night and snow drifts are mountain high on all roads. Business is practically suspended and early trains are detained for two or four hours.

#### All Traffic Tied Up.

Black River Falls, Wis., Feb. 4.—The blizzard has tied up all traffic in this part of Wisconsin.

#### Intensely Cold in Kansas.

Topeka, Kan., Feb. 4.—The cold wave reached its worst state at 10:30 Wednesday morning, with the thermometer at four above. The Santa Fe report most of their trains on time. The Rock Island is more seriously delayed. The Rock Island-Colorado trains at present are reported several hours late. Little snow fell in this section.

#### A Deluge in Tennessee.

Chattanooga, Tenn., Feb. 4.—The storm reached a climax Tuesday night when the rain fell in torrents for five hours and the wind reached almost cyclonic velocity. The streets were flooded, signs blown down, trees uprooted and telephone and telegraph wires badly demoralized. The Tennessee river is rising rapidly.

#### Tornado in Texas.

Dallas, Tex., Feb. 4.—A small tornado passed over Seagoville, this county, injuring four persons; how badly, it is not known. Those injured were pupils of the public school, which was destroyed, along with a private residence.

AT IT AGAIN.

hue, of Battle Creek, Mich., Abe Silver-ton, of New York, and Frederico Romero, of Juarez, Mex.

Caused by Operator's Neglect. The disaster was caused by the neglect of Night Operator George Clough, at Vall's station, to stop the west-bound train as ordered.

So great was the impact from the two flying trains that the two engines reared up like two animals in combat and crushed the boilers like shells. The cars immediately in the rear rushed upon the mass of heated iron and piled up in a tangled mass.

#### Wreckage Takes Fire.

The wreckage caught fire at once. The flames, followed by the oil from the broken tanks of the engines, quickly communicated to the cars, and the whole mass was soon on fire. Those who were able to escape from the cars in the rear of the trains quickly came to the rescue.

Special Train Carries Relief. A relief train was quickly made ready and Dr. Fenner, the railroad surgeon at this point, with two assistants, was hurried to the scene. They found a terrible state of confusion existing about the scene.

Men and women were running to and fro in a panic, some clad only in their night clothes, others in different stages of undress. Many of these were suffering from slight injuries. The surgeons rendered every aid possible under the circumstances.

#### Number of Dead Grows.

Tucson, Ariz., Jan. 30.—Twenty-four dead bodies have been taken from the wreckage of the Sunset Limited and the Crescent City express, which collided near this city Wednesday morning. It is now believed that the number of fatalities will reach 35. The official list places the number of injured at 47.

#### Two Women Hanged.

London, Feb. 4.—Amelia Sach and Annie Walters, "baby farmers," were hanged at Holloway jail. The women were recommended to mercy on account of their sex, but the home secretary was unable to grant the reprieve usually accorded.

#### Vermont Votes License.

Montpelier, Vt., Feb. 4.—Vermont yesterday, at a special election, went out of the list of prohibition states, the majority for the acceptance of the recently enacted local option high license law being about 1,000.

#### Rob a Post Office.

Dodge Center, Minn., Jan. 31.—The safe in the post office here was blown open and \$300 or \$400 in stamps and over \$100 in money taken.

track caught the caboose of the wrecked train as it was thrown in its way. The wreckage was piled high, making a complete blockade of both tracks. The engine crews escaped with slight injuries. The wreck took fire and the engine, caboose and three cars were burned. The Goshen fire department prevented the destruction of the entire train by checking the spread of the flames to several oil tank cars. The loss will aggregate many thousands of dollars. The collision occurred in a blinding snowstorm.

#### Shortage Is Large.

Des Moines, Ia., Jan. 31.—The examination by accounts of the affairs of the defunct bank of Oteo, owned by Cutting and Willett, has disclosed a shortage of \$214,491, instead of \$34,833, as at first reported. Speculation on the board of trade is the only explanation offered for the shortage.

#### Twelve Burned to Death.

Seattle, Wash., Feb. 3.—In the Finnish settlement on Malcolm island, some distance up the coast from Vancouver, fire broke out while the men were at a meeting, in the common living house in which 24 families lived, and 11 women and children were burned to death and 17 injured.

#### No Indictments.

Frankfort, Ky., Feb. 2.—The Franklin county grand jury has adjourned. Notwithstanding the fact that Henry E. Youtsey, serving sentence for life as accessory to the murder of Gov. Goebel, was before the jury for over a week, no indictments in the Goebel case were returned.

#### Says Rumors Are Absurd.

Washington, Jan. 31.—Baron Speck von Sternberg, German minister plenipotentiary, reached here from Berlin, and declares that rumors of a plot to seize Venezuelan territory were absurd. He said the Monroe doctrine was established beyond dispute.

#### Killed in a Wreck.

Cloverdale, Ill., Feb. 3.—Two Illinois Central stock trains collided near here early with the result that three men are dead, four seriously injured, and several others more or less severely hurt. A heavy fog caused the accident.

#### The Public Debt.

Washington, Feb. 3.—The monthly statement of the public debt shows that at the close of business January 31, 1903, the total debt, less cash in the treasury, amounted to \$943,942,653, which is a decrease for the month of \$3,222,116.

## The Franchise.

The gas franchise is ready and open to inspection. It is evident that the franchise committee has made a thorough investigation of all details in the gas business, every feature of it being covered with stipulations. Instead of a franchise with holes, through which a company could escape in case of a judicial trial, the franchise more resembles a battlement bristling with towers and loopholes, and ready for any emergency. Every clause is guarded; in every way the city is protected. This franchise should satisfy the most conservative in giving away our city's right.

It seems to us however that there is one objection. This is the latter part of section 9 which reads as follows:

And it is expressly agreed by said grantee and his assigns that if said price for furnishing gas for illuminating, fuel and manufacturing purposes is lowered at any time during the life of this ordinance, said price thus made shall not be increased, but shall remain as then made by said grantee and his assigns for the next then succeeding term of five (5) years, after which time the said grantee and his assigns may again change and receive, for furnishing said gas to the inhabitants of the city, the prices hereinafter named and provided for.

Supposing the times were string ent and coal cheap the gas company might wish to lower the price of gas to accommodate its customers. But the prohibitive clause demands that the lowered price be maintained for five years. During this time the conditions which brought on the reduced price might change. It is not likely that a hard time would last for five years. The company however would be forced to continue its reduced rates for that length of time, even while the price of fuel material required to produce gas might go up. We would be in favor of such a clause covering illuminating gas. This would prevent any ridiculous cut for a competitive purpose.

With a clause compelling a reduction of the price of fuel to last five years there would be no incentive for a reduction in the price of gas at any time.

## Citizens Discuss Theatre Proposition.

Holland and Grand Haven business men are discussing theatre propositions almost at the same time. Both cities are anxious to secure a first class opera house realizing that towns are often judged by their theatres. The citizens' meeting held in De Grondwet hall last Monday evening to discuss propositions for the construction of an opera house was well attended, about seventy-five being present. The sense of the meeting was that a stock company of local men be formed. Col. Wood, the architect and lessee of the New Powers theatre at Grand Rapids and well experienced in theatre building, was present to give any advice in that line.

The discussion of the proposition submitted by Dr. Scott on behalf of Tlemmen Slagh and K. Zuidewind brought out the views of those interested in the theatre movement. Messrs. Slagh and Zuidewind propose to invest in a \$40,000 building provided the citizens would contribute \$10,000 by the purchase of seats at the opening performance. They would then construct a large building under the direction of Col. Wood of Grand Rapids whose plan is to have three store buildings in front with the theatre in the rear. The entrance to the theatre would be through the middle store in which sufficient space would be left for a small business. Col. Wood stated that his experience had taught him to build a theatre on the ground floor, and parallel with the street so that the currents of air would not reach the occupants every time the door was opened. He plans to have an artistic front to the building, constructed of press brick which is less perishable than stone. The stores would be two stories high. The construction of the theatre there would follow almost in detail the one Mr. Wood is at present erecting at Saginaw. If, however, others had a better plan Messrs. Slagh and Zuidewind would abandon their plans and head a popular subscription list with \$300.

It was expressed that theatre property was generally not a profit-paying possession. On that ground \$10,000 had to be raised by the citizens. Mr. Floyd argued that if citizens gave \$10,000 they should be entitled to stock in the enterprise. He stated that E. D. Simpson of Chicago, also well experienced in theatre building, would unite with the local business men to contribute to a stock company.

As Col. Wood stated that stock companies invariably resulted in loss to small stockholders and that there was no profit for an owner of a theatre, Attorney McBride argued that if there was no profit in a theatre it was unfair to accept the offer of Slagh & Zuidewind but that a stock company be formed in which the individual members would bear but a share of the loss. Attorney Geo. E. Kollen somewhat compromised the two propo-

sitions by suggesting that the proposers of the proposition receive the contributors of the \$10,000 bonus as investors in the stock company.

Mr. Slagh gladly yielded to this proposition to settle difficulties and expressed his satisfaction over such a plan.

A committee was appointed to make a canvass of the business men, to confer with architects and to ascertain a plan most favorable to construct a first class theatre. The question of site was also left to the committee for investigation. The committee consists of J. Lokker, L. T. Kanter, C. J. De Roo, P. H. McBride and Geo. E. Kollen. No decisive steps were taken by the meeting but it is hoped that the men forming the committee will take active measure to equip Holland in a short time with a first class opera house.

## Additional Local.

Twenty marriage licenses were issued by County Clerk Brown during the month of January, which is three more than were issued in January 1902.

Court will be in session in Diekema and Kollen's office Tuesday, February 10th and all those wishing to naturalize and receive their papers can do so on that date.

At the annual election of officers of Hose company No. 1 the following officers were selected: Lieutenant, Wm. Trimble; Second lieutenant, G. A. Koning; Secretary, Peter Arendsen; Treasurer, Jacob Jakel.

Grand Haven is also taking active measures toward procuring a new opera house. A committee was appointed to solicit subscriptions and report the progress of their work at a meeting to be held next week Thursday.

The Christian Reformed church at Graafschap has made the following trio: Rev. H. Keegstra of Leighton, Ia.; Rev. K. Kuiper of Chicago, Ill.; and Rev. L. Veltkamp of Lamont, Mich. Election will be held on Sunday, Feb. 15.

Johnny Smith of Summers, Mont., formerly one of the life savers here and Rob Kremers of Salt Lake City, Utah, son of Dr. Kremers, shot 9 deer in the short time of two days. Mr. Smith sent a hide tanned by Indians to Mr. Turner of Macatawa.

Miss Roberts, special teacher in music and drawing, returned from Struis last Tuesday morning to resume her duties in the public schools. Her brother who was very ill with pneumonia is greatly improved and his recovery is expected.

The Dick Thompson Jubilee singers will appear in the High School Auditorium on Tuesday, February 10, under the auspices of the Senior class. The singers come highly recommended and their entertainment cannot fail to prove a delightful treat. Tickets will be sold at 15 and 25 cents.

E. W. Chapman, as delegate of this city, attended the prohibition county convention held at Grand Haven last Tuesday afternoon. The convention elected Mr. Chapman as one of the delegates to the state convention which is to be held at Flint on Feb. 12 and 13. J. J. Bolt of Grand Haven, was nominated for county school commissioner.

On account of the large demand for fuel Superintendent Riksen, who has charge of clearing the large forest tract in Overisel township is suspending logging operations and clearing up all the wood that can be converted into fuel. A force of 60 men is busy at work cutting wood. About 40 acres of the tract are expected to be cleared by spring.

Smallpox is becoming very prevalent in Graafschap. The whole family of John Pierce has been attacked with the disease. Owing to vaccination the disease is in a mild form called varioloid. Mr. Salthouse, of Alendale, who was visiting his brother-in-law, John Pierce, in Graafschap is also down with the disease and is quarantined with the rest of the family. M. Schipper is the victim of another virulent case of smallpox. He had been broken out for 3 days before attention of Dr. Beuker was called to the case, and a great many have been exposed. A board of health met and made stringent rules. Wherever there has been exposure vaccination is insisted upon. As smallpox attacks vaccinated persons in a light degree all who are in any way exposed ought for their own welfare demand vaccination.

Justice Pageison, of Grand Haven, sentenced Rev. Charles Ponnitz to ninety days in the house of correction at Detroit. Ponnitz was charged with beating his wife who complained of ill-treatment. She declared that her husband had often threatened to kill her and would surely carry the threat into execution if she appeared in court against him. Mrs. Ponnitz is the mother of an infant only a few weeks old, and showed signs of her husband's brutal treatment. Her neighbors verified her words and brand Ponnitz as a brute entirely devoid of human instinct. Ponnitz is said to be a traveling evangelist and sometimes preached in German settlements in the south-east section of the county. By some Ponnitz was thought to be insane but others think he possesses a mean and wicked disposition.

Lizzie Billings, a resident of Grand Rapids, filed a bill for divorce last Saturday through her attorneys Holmes & Holmes, from her husband, William R. Billings. The bill alleges, that at the time of their marriage in May, 1897, Billings was the proprietor of the City hotel at Holland and since that time the family has been moving about from place to place having resided at Grand Ledge, Toledo, Chicago and Lake Ann, beside having passed several months in Grand Rapids. The cause for divorce is alleged to be extreme cruelty and confirmed drunkenness, and the plaintiff's attorneys state that the husband has squandered a fortune of more than \$20,000 during the few years of his married life. The wife also asks for an injunction to prevent her husband from selling a hotel and other property at Lake Ann, the last place of their residence. A temporary injunction to that effect has been issued by Judge Perkins.

# A Fair Trial

BY PHILIP MANILA

"WHY, I declare," said Miss Waringford, suddenly. "There is Mr. Barton in that far office looking through some books. O, I must speak to him. How strange that he should happen here just as you and I dropped in."

"That is Barton, sure enough," answered her companion, Tom Moford. "And as sure as I live, he's preparing to propose to another girl."

Miss Waringford blushed crimson. "Why, why, what do you mean?"

"O," said Moford, lightly, "I see he's looking through Dun's and Bradstreet's financial reports, and I suppose he wants to see whether his prospective father-in-law is in the hundred-thousand-dollar class or not."

"Why," said Miss Waringford, angrily, "what a detestable thing to say of one's best friend."

Mr. Moford moved around a little uncomfortably in his chair. "O, can't you see when I'm joking? You take everything so seriously."

"Well," said the girl, a little mollified. "I might have known you were joking. Still it isn't quite right even to say such a thing in fun. So now let's go in and speak to him. Why, he's gone."

Moford talked a little while longer until he was quite certain he heard Barton's voice saying: "Down" at the elevator shaft, and then he and Miss Waringford walked into the office where Barton had been looking at the books. They still lay open on the table, and as she passed through the room Miss Waringford could not help but see as she glanced at them that they were open to "War."

As she went home that afternoon she could not get the incident out of her mind. She repeatedly told herself that Mr. Moford was merely joking about Mr. Barton, but at the same time she had to acknowledge to herself that she was considerably annoyed over the incident. She had read any number of jokes in the funny columns of the newspapers about young men seeking to read their intended father-in-law a title clear in Bradstreet's on Dun's before proposing to the girl, and it had always seemed to her that if any man did such a thing he must be a sordid, mean spirited creature. The thing troubled her all the more because of the fact that she was conscious that Mr. Barton was more to her than anybody else she had ever known. She had felt that her feeling was reciprocated, and lately she had felt certain that Mr. Barton had been on the verge several times of saying the words that she was only waiting to hear. And now she tried to dismiss the whole matter from her mind.

But she was still thinking of it when she came down into the parlor that evening to meet Mr. Barton. They chatted for awhile on a variety of subjects, and then Mr. Barton suddenly turned to her.

"Miss Waringford," he said, "I can't hide my real feelings for you any longer. I love you. I love you as much as a man can love a woman. I—I—well, that's all there is to it, except—except, that I want to ask you, do you love me, will you be my wife?"

Miss Waringford sat staring ahead. Mr. Moford's words were wildly running through her head. "There is Barton, and as sure as I live he is preparing to propose to another girl. He is looking to see whether his prospective father-in-law is in the hundred-thousand-dollar class or not." About to propose to another girl. And now he was proposing. Therefore she was the other girl. And he had been looking at the page with "War" at the top. Was he looking for Waringford? Before she had meant to say it she had said: "I suppose my father is rated A1, Mr. Barton?"

"I don't know what you mean," Mr. Barton answered, slowly.

"I thank you for the great honor you have done me, Mr. Barton," she said, "I am very sorry, though, that you have said what you have, for I am compelled to say no."

Mr. Barton sat quite still. Then the nervousness and agitation he had displayed when he had asked her to be his wife disappeared. He was quite calm now, and he spoke like a lawyer examining a refractory witness.

"You say 'no.' May I ask you to which you said no. My question as to whether you loved me or whether you would be my wife."

"To both," she answered.

They both sat in silence. Then Mr. Barton spoke again. He still had his lawyer pose. Only, this time, instead of examining a witness, he was making a speech to the jury.

"Miss Waringford, I suppose that according to all the precepts of the stage and the ethics of all novels, this is the place where I should take my hat and coat, and, after asking you to forget what I have said, to bid you good night and go out of the door and out of your life."

Miss Waringford choked back a sob, but she did not reply. In the same even tone of voice Barton went on:

"But I am not going to do anything of the kind. I love you. I believe that you love me, or have loved me at least, and that something which possibly could be explained away has occurred to cause you to want to dismiss me. Do you remember when we were reading 'Lucile' together that your opinion of the poem after we had finished

it was that it was pretty, but that Lucile and Lord Alfred were silly not to have been perfectly frank with each other, and so have avoided all the unhappiness that came to them because of their foolish pride. I remember several plays which you have pointed out that the whole plot of each play hinged on some trivial incident that a single word or the slightest glimmer of common sense on the part of either the hero or heroine of the drama could have set right. But in that case there would have been no occasion for three acts of the troubles that the misunderstanding brought about. So, for dramatic purposes, the lack of good sense on the part of the hero and heroine were justifiable. You have said these misunderstandings, such as occur in novels and on the stage, would not occur in real life; that real people who were worth anything at all would not let a trivial incident or an unusual happening be fraught with all the strange possibilities that fiction character and stage people see in them.

"Now, it seems to me that after what you have said you would want to prove the truth of your own words. You don't want me to go away thinking you are as foolish as a fiction or a stage heroine. Therefore let us do what they never do in the books or on the stage. Let us calmly and rationally consider the reasons that have prompted you to

ALL HER HURT PRIDE CAME TO THE SURFACE.

reject me. If it is because you simply do not wish to marry me, then well and good. I will go. If some incident has occurred that has caused you to lose the love that I believe you once had for me, then I have a right to know it, and if I cannot explain it satisfactorily then our acquaintance shall end. Come, shall this be the first chapter of 'Lucile' or the opening act of a society drama? Or shall we be common sense people?"

It was some minutes before Miss Waringford spoke. Then she said: "You are right. I shall try to be as calm and judicious now in discussing this matter as you were. I saw you looking over Dun's and Bradstreet's this afternoon. Some one said you always looked up the financial standing of your prospective father-in-law before you proposed. Then you came out and proposed to me."

"The evidence," said Mr. Barton, calmly, "is indeed going strong against the prisoner."

"O, yes," said Miss Waringford, "it sounds silly, I know, and you are laughing at me, but if you knew how it hurt—what it means to me—O, I don't know what I'm saying." She dropped her head into her hands and sobbed.

"May I ask you," asked Mr. Barton, calmly, "how you happened to be in the office of Barrow & Co., bankers, at two o'clock this afternoon?"

"Yes," sobbed the girl. "I met Mr. Moford and we went in there to meet his aunt."

"Who wasn't there," said Mr. Barton.

"No, she wasn't there—and I wish I hadn't been there, either."

"And you saw me in the far office, looking at Dun's and Bradstreet's and Mr. Moford made his remark?"

"Ye-yes."

"Um-hum. Now the defendant will take the stand in his own defense. Mr. Barton, do you know the nature of an oath? Answer, 'I do.' Be sworn. So help you, and so forth?"

"I do." Where were you at two o'clock this afternoon? Looking in Dun and Bradstreet at the office of Barrow & Co. 'Why?' To find the financial standing of James J. Waringford. 'The name again. Waringford, not Waringford?' 'No, sir.' 'Why?' 'I was asked so to do by Mr. Tom Moford, who suggested that I drop into Barrow & Co. on my way back to my office after lunch.' 'What time do you finish lunch?' 'At about two o'clock.' 'So that would bring you into Barrow & Co.'s about two?' 'Yes, sir.' 'That is all. Take the witness.'

Miss Waringford did not move.

"Take the witness for cross-examination," said Mr. Barton, sternly.

Miss Waringford looked up shyly through her tears.

"I—I don't want to cross-examine the witness," she said, "but I'll—I'll take him."—Chicago Tribune.

**The Bible in Society.**

At Semelink Hall, on Tuesday evening, the Rev. S. Vander Werf, of the First church of this city lectured on the subject, "The Bible in Society." The speaker amply substantiated every position taken by an array of Scripture references, in fact, his whole presentation was based on God's own word, and as such was very strong. It was well worth hearing and worthy of publication. We note just a few of the leading lines of thought.

Society is not an association of men for special work; society is composed of persons, individuals in relation to all others. God is the author of all the various relations. The Bible reveals these relations in society. The family is the unit of society. Here mention was made of relation between husband and wife, parent and child, brother and sister. Then the relation of master and servant, rich and poor, employer and employee, teacher and pupil, capital and labor etc., etc., were treated. It was shown that obedience to social laws is liberty.

The Bible method of education showed itself in discipline, instruction and example. Mr. Vander Werf then gave a very vivid but none too dark a picture of the condition of society in our land, and more particularly of our large cities. The sins of society today are correctly catalogued by Paul in his second letter to Timothy, third chapter.

Society must be redeemed. But how? We must return to reading of the Bible; we need a Bible reading and Bible obeying public. Christ must be in the family, in the pulpit, in school, in state, in Christ everywhere. We need watchmen that keep not peace day or night, watchmen who will ever present to men the high ideals of the Gospel.

### STATEHOOD BILL KEEPS SENATE LIVELY

Is Attached to the Agricultural Appropriation Bill as a Rider—House Passes the Indian Appropriation Measure and Other Bills—Summary of Proceedings from Day to Day.

Washington, Jan. 29.—A sharp debate was precipitated in the senate yesterday when Mr. Rawlins called up his resolution directing the secretary of war to furnish the senate the proceedings of a number of courts-martial in the Philippines, alleged abuses in the army being the subject. The statehood bill was further considered.

Washington, Jan. 30.—The army appropriation bill was reported to the senate yesterday and a message from the president was read in which he asked for the necessary power to cooperate with Mexico and China regarding the restoration of the parity of silver and gold.

Washington, Jan. 31.—A favorable report was made in the senate yesterday on Senator Quay's statehood bill. At the conclusion of routine business Senator Burrows (Mich.) called up the resolutions relative to his late colleague, Senator McMillan, and tributes to his memory were paid.

Washington, Feb. 2.—The senate on Saturday passed the house bill providing for the creation of a general staff of the army, but it was amended so as not to go into effect until Gen. Miles' retirement. The committee on agriculture agreed to place the omnibus statehood bill on the agricultural appropriation bill as a rider. An amendment to the constitution was introduced prohibiting the holding of a fortune exceeding \$10,000,000 by any one individual, the surplus to go to the United States treasury.

Washington, Feb. 3.—The senate yesterday had the army appropriation bill under consideration for some time. A joint resolution was passed requesting state authorities to cooperate with the census office in securing a uniform system of birth and death registration. The statehood bill was up for a short time.

Washington, Feb. 4.—Bills were passed in the senate yesterday to prevent railroads from discriminating in rates, and the army appropriation bill. The statehood bill was further discussed. The Panama canal treaty was favorably reported.

House Proceedings.  
Washington, Jan. 29.—The time was occupied in the house yesterday in considering the Indian appropriation bill.

Washington, Jan. 30.—In the house yesterday the Indian appropriation bill was passed and consideration of the post office appropriation bill was begun. Mr. Bristow (N. Y.) introduced a bill increasing the salary of the president of the United States to \$100,000 a year, and an anti-trust measure was reported which proposes rigid amendments and penalties for violators of the Sherman law.

Washington, Jan. 31.—In the house yesterday 45 private claim bills were favorably acted upon, it being the last day for such bills. A favorable report was made on a bill to provide a safer and easier method of sending money by mail by a system of post check notes which are made exchangeable at money order post offices and banks.

Washington, Feb. 2.—A joint resolution was introduced in the house on Saturday, proposing an amendment to the constitution prohibiting polygamy. The post office appropriation bill was discussed. At noon yesterday the house pronounced eulogies in memory of the late Senator McMillan, of Michigan.

Washington, Feb. 3.—The house passed about 40 bills yesterday under suspension of the rules. The most important of them was the senate bill appropriating \$1,500,000 for a new department of agriculture building. A bill was introduced to pension all soldiers and sailors who served at least 90 days in the civil war at the rate of \$12 per month, and all the widows of such soldiers and sailors who were married prior to June 27, 1890. The sundry civil appropriation bill was reported. It carries an aggregate appropriation of \$78,007,929.

Washington, Feb. 4.—The house spent practically the whole time yesterday on claims bills. After the measures were disposed of general debate on the post office appropriation bill was resumed, and Mr. Robb (Mo.) spoke on the trust question.

## NEW SCALE OR STRIKE.

John Mitchell Threatens a Tie-Up of All Bituminous Coal Mines April 1.

Indianapolis, Ind., Feb. 2.—Either a new scale or a general strike of miners throughout the bituminous field April 1 was the intimation conveyed by John Mitchell at Saturday's session of the operators' and miners' wage conference. Mr. Mitchell also served notice on the operators that it was useless to talk of a return to the ten-hour day. The eight-hour day, he said, had come to stay, and nothing would induce the miners to give it up. The miners' leader spoke with great deliberation and with apparent appreciation of the full significance of his utterances.

Indianapolis, Ind., Feb. 4.—It is stated that the signing of the scale of the mineworkers and the operators is now dependent on the action of the Indiana operators and miners. The miners, it is said, will be given a ten per cent. advance in wages in all departments if the Indiana men can agree.

### TRAPPED BY YAQUIS.

Detachment of Mexican Regulars Almost Annihilated by Indians They Were Pursuing.

Tucson, Ariz., Feb. 4.—Word has just reached here that the Twelfth battalion of the Mexican regulars was almost annihilated in a battle with the Yaquis, whom they were pursuing after having defeated them in a fight at San Marcial.

The regulars were caught in a trap and their retreat was cut off by a second band, of whose existence they knew nothing. There were 500 soldiers in the battalion, and if the report of the survivors of the fight who reached San Marcial is true, a great many of that number were killed; the reports, however, are believed to be exaggerated.

## NOTE MAY BRING PEACE.

Ultimatum of Bowen Delivered to Allies Expected to Result in an Adjustment.

### WILL REcede FROM THEIR POSITION.

Important Conference Held at the British Embassy in Washington—Powers Asked to Consent to Conditions Named—Attitude of the Allies Toward Venezuela Explained.

Washington, Feb. 4.—There is high authority for the statement that the ultimatum delivered by Minister Bowen to the allied powers Monday night, rejecting their proposition for preferential treatment in the payment of their claims against Venezuela, will result in an adjustment of the trouble. The foreign offices of London, Berlin and Rome are in possession of suggestions from their representatives in Washington which it is said will give them an opportunity to recede from their position on the question of preferential treatment.

Important Conference.  
At the British embassy the most important conference that the representatives of the allies have had among themselves took place. Mr. Bowen, of course, was present. The conference was called to consider the recommendations which the Italian and British ambassadors and the German minister should make to their governments as to the next step to be taken. As a result of this conference the foreign offices in London, Berlin, and Rome are in possession of suggestions which if adopted will mean the success of the Washington negotiations and the raising of the blockade.

Asked to Consent.  
The allied powers have been again requested by their representatives to consent to priority of payment of their claims for a limited period only and equality of all nations thereafter. Mr. Bowen has stated that he is willing that the allies receive preferential treatment for one month, if at the end of that time all the claimant nations be placed on an equal basis as to time and proportionate payments.

Bowen's Plan.  
It is the conviction of one of the negotiators at least that this proposition of Mr. Bowen is eminently fair. It involves a compromise of the powers' original request for six years' preferential treatment, but will enable them to retain a part, at least, of their prestige.

The feeling is growing that a persistence in their present position can result only in loss of prestige for the allies and bad feeling against them, not only in Venezuela, but elsewhere throughout the Americas. As a result of these considerations, at the conference at the British embassy it was agreed that a note should be addressed to the three governments of Great Britain, Germany, and Italy, setting forth the exact attitude of the United States with reference to the powers' preferential demand, the state of public feeling here regarding it, and to urge a prompt acceptance of preferential payments for a period of from one to six months. An answer is hoped for from one, if not all, of the allies within the next 24 hours.

Allies Explain Policy.  
London, Feb. 4.—Reuter's Telegram company says it is officially informed that the attitude of the allies regarding the so-called priority claims against Venezuela has been misinterpreted, thus increasing the complications. It is explained that the allies do not insist on the precedence of their claims over others, but insist that they shall be regarded as separate, to be dealt with direct between themselves and Venezuela. Until a specific arrangement is made for the satisfaction of their claims they are determined to continue the blockade.

Fifteen Drowned.  
Corfu, Island of Corfu, Feb. 2.—The British cruiser Pioneer ran into a torpedo boat destroyer near the channel of Corfu Saturday and 15 persons are believed to have been drowned. Two bodies have thus far been picked up. The crash is said to have occurred during sea maneuvers in which British boats were taking part.

Would Retire Miss Barton.  
Washington, Jan. 30.—The retirement of Clara Barton from the Red Cross presidency and reorganization are urged by Gen. John M. Wilson, Mrs. Cowles and others. Evidence was submitted to congress that she has given herself arbitrary power.

Fatal Explosion.  
Fort Wayne, Ind., Jan. 30.—John Foltz, Fred Matthews, Henry Piepenbrink and Conrad Miller were killed in an explosion at the plant of the Eckhart Packing company and ten other persons were injured.

## The Truth About Lung Troubles

Chapter I. Severe climate. (Thermometer has been known to drop 50 degrees in 50 minutes.) Sun hot, wind cold.

Chapter II. A hard cold. A touch of the grip. Don't seem to get well.

Chapter III. Hacking cough. (Guess it will wear off when warm weather comes.)

Chapter IV. Doctor says left lung is affected.

Everybody knows the last chapter. Isn't it pitiable? The more so since common cough-cures don't cure a hacking cough. They only temporarily dry it up and upset the stomach. The cause is still there. We believe we can help nine cases out of ten of this kind—that is about our average of relief and cure so far.

We do it with Vinol, which is made from the best remedy for lung troubles the world has ever seen—cod liver oil, but with the vile-smelling grease left out.

The results are gained by improved nourishment. The rich new blood overcomes the swarming germs of disease. There is almost immediate gain. Try it on our guarantee—money back if you want it.

IF IT WERE NOT FOR HOLLAND INDOSEMENT PEOPLE MIGHT BE SKEPTICAL.

Holland people want local proof. That's what we have here. It's not beyond belief, because it can be proven. Read a local citizen's testimony.

Garret Kopena, living five miles southeast of Holland, farmer, says: "I have been subject more or less all my life to attacks of kidney pains and backaches. If I caught a cold or strained myself from doing any unusual heavy work I was sure to be laid up for a time. The attacks came on at intervals and were very severe, so that it was almost impossible for me to bend over and if in a stooped position I could scarcely straighten again. I tried a great many different remedies and wore players but could get nothing to remove the trouble until I saw Doan's Kidney Pills highly recommended and went to J. O. Doesburg's drug store in Holland and procured them. My back was hurting me severely at the time, but it required only a few days treatment to relieve me and in a short time the aches and pains were entirely removed."

### Had Not Slept for Two Weeks.

OWING TO NERVOUS TROUBLE, YET MALTA PURA CURED HER AND NOW SLEEP IS REGULAR AND HEALTHFUL.

A well known lady residing south-west of this city, says she owes her life to Malta Pura, the great tonic and invigorator manufactured by the Battle Creek Health Beverage Co., Ltd. Although this lady is 72 years of age, she is now enjoying very good health. Here is what she says unsolicitedly:

"All the folks out here know that I have been a sufferer from a nervous trouble for years. I do not know the cause of the nervousness unless it was stomach trouble, but I do know that Malta Pura cured me, and I only used four bottles. About three or four months ago, I was compelled to take to my bed owing to my condition, but I could not sleep. It seemed impossible for me to get any rest. I took a number of medicines but none of them did me any good. My husband had three different doctors consider my case, but they did not help me. It was after two weeks of sleepless nights during which time I tossed about until I felt I would never get better, that I was told by a friend of my sister that Malta Pura would help me. Well, we bought a bottle and after I had used half of it, seemed somewhat improved for I could get little rest. I kept on taking it and after using four bottles in all, am as well as anyone could expect, my age considered. If I know of any person suffering from nervousness I shall feel it my duty to let them know what Malta Pura has done for me. I firmly believe it to be the savior of my life. I sleep well, without any after distress and consider myself as healthy as any woman of my age."

The name furnished on application to the Battle Creek Health Beverage Co., Ltd., Battle Creek, Michigan. Malta Pura is for sale at Druggists.

### LICENSE IN VERMONT.

Prohibition is Abandoned at Special Election, the State Adopting Local Option Law.

Montpelier, Vt., Feb. 4.—Vermont on Tuesday, at a special election, went out of the list of prohibition states, the majority for the acceptance of the recently enacted local option high license law being about 1,000. Of the 246 cities and towns in the state 237 give a vote of 30,204 to 29,283 in favor of the change. The places heard from include all the cities and large villages, and the remaining nine are small rural communities, mostly in Rutland county, which will not materially alter the figures given. The result, while gratifying to the license workers, is not up to their expectations. Some had predicted an affirmative majority of 15,000.

The prohibition law which has been repealed was adopted in 1852. Since that time its retention has kept Vermont in the position of the foremost prohibition state, and this fact, it is believed, will exert considerable influence upon Vermont's neighboring states of Maine and New Hampshire, which are now hesitating as to the wisdom of dry laws.

The sheriff and physician have left for the scene. The shooting is the result of strife over a division of the range. More trouble is anticipated.

### The Strike Inquiry.

Philadelphia, Feb. 4.—Much of the rebuttal testimony presented Tuesday to the anthracite coal strike commission was furnished by mine workers from the upper region. In this section the miners are asking for payment by weight. The witnesses in every case were questioned concerning the advantage of such a change in the wage scale and all were unanimous in the opinion that the method was the only just one where the veins were flat. Other witnesses were called to testify concerning the alleged restriction of the coal production, and considerable evidence was introduced regarding conditions in the coal regions during the strike.

## Sick Blood

Feed pale girls on Scott's Emulsion.

We do not need to give all the reasons why Scott's Emulsion restores the strength and flesh and color of good health to those who suffer from sick blood.

The fact that it is the best preparation of Cod Liver Oil, rich in nutrition, full of healthy stimulation is a suggestion as to why it does what it does.

Scott's Emulsion presents Cod Liver Oil at its best, fullest in strength, least in taste.

Young women in their "teens" are permanently cured of the peculiar disease of the blood which shows itself in paleness, weakness and nervousness, by regular treatment with Scott's Emulsion.

It is a true blood food and is naturally adapted to the cure of the blood sickness from which so many young women suffer.

We will be glad to send a sample to any sufferer.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.
